**UNIVERSITY WORKS DEPARTMENT**

## **"APPEAL"**

All are requested to cooperate in meeting the increase in demand of water and electricity by using the same judiciously and by adopting following measures:-

### ***"SAVE WATER"***

- Check leakages of overhead tanks, pipes and taps of premises.
- Don't keep tap in running position while brushing teeth and shaving.
- Install a water bucket to R.O. Machine for useless water and same may be used for plants, cleaning of car and washing of windows etc.
- Use of bucket in place of shower for bathing.
- Always use water tub for washing the utensils instead of running tap.
- Washing of vehicles with the help of bucket in place of hose pipe.
- Turn the tap off while not in use.
- Mop the floors instead of using hose pipe.
- Don't irrigate lawns.
- Don't wash Courtyards, Cars & Scooters with treated potable water.

### ***"SAVE ELECTRICITY"***

- Switch off all electrical appliances while not in use.
- Tube lights installed in corridors in various buildings may be switched off during day hours
- All electrical appliances may be switched off before leaving the office after working hours.
- While using the Air-conditioners for the use of offices/residences temperature should be 25°C.
- Power down computer and unplug it at the end of the day.
