Dear Sir/Madam,

We are pleased to inform you that the Department of Bio and Nano Technology, G. J. University of Science & Technology, Hisar, India is organizing two days workshop on “**Statistical Application in Research Data Analysis**” in the CRS Auditorium/Departmental conference room on 24th-25th February, 2017, under the aegis of TEQIP-II program of the University.

The workshop will focus on role of statistics in research data analysis. Statistics is the science of collecting, analyzing and making inference from data. It is not only studied theoretically by advanced mathematicians but one that is used by researchers in many fields to organize, analyze, and summarize data. Statistical methods and analyses are often used to communicate research findings and to support hypotheses and give credibility to research methodology and conclusions. It is important for researchers and also consumers of research to understand statistics so that they can be informed, evaluate the credibility and usefulness of information, and make appropriate decisions.

The course is best suited for Students- Post Grad, Pre-Doctoral from all fields of sciences including Pharma, Mathematics, Environmental, Chemical & Life Sciences background and Faculties, Teachers, Scientists from Colleges, Universities, Research Institutions & Company Professionals.

We would appreciate if you kindly attend and participate in the workshop. We also request you to encourage your colleagues and scholars to participate in the workshop. Your kind gesture will encourage and help the organizers in this academic endeavor. **There are 100 registrations limited on first come first serve basis.**

There will be no registration fees for TEQIP-II sponsored candidates and a registration fee of Rs. 300/- for others. For more information you may kindly contact to office of the undersigned.

Looking forward to see you in the workshop,

With Best Regards,

Namita Singh,
